

Intermediate Project Engineer

Bluestar Engineering Ltd. is a Calgary based EPCM company specializing in small to medium size oil and gas projects. We are a group of professionals who form a fully integrated multi-disciplinary organization backed by many years of experience.

We are currently seeking an Intermediate Project Engineer to join our team.

Duties and Responsibilities:

- Project support work for design basis, budgets and schedules.
- Participate in facility planning and design.
- Detailed calculations, specification of equipment, review and check detailed engineering drawings.
- Work with drafting staff to prepare PFDs, and PIDs.
- Prepare and review bids.
- Perform review and evaluation of equipment vendor design data, calculations and drawings and communicate with supplier and client personnel.
- Prepare regulatory submissions for facility projects to the AER, AENV, ABSA, OGC and other bodies as required.
- Prepare Line List, Equipment List, Instrumentation List, Tie-in List, and Vendor Lists.

Requirements:

- Chemical or Mechanical Engineering degree is required.
- 3 to 8 years of experience in an EPCM setting.
- Registered as an E.I.T. or P.Eng. with APEGA.
- Ability to adjust to change and multitask in a fast-paced setting.
- Strong written and verbal communication skills.
- Personable and able to work with a team in a multi-disciplinary environment.
- Desire to learn and develop professionally.

Please be advised that Bluestar Engineering Ltd. is an equal opportunity employer and only applicants who are selected, will be contacted for an interview.
